November 26, 2026

Dear Sir/Madam,

The inaugural session of the **'Science in Action' Exhibition is scheduled at 9.30 am on Friday, November 27, 2026, at Jawaharlal Nehru Planetarium**'s U R Rao Bhavana. **Sri Cyril K Babu, Principal Curator, Visveswaraya Industrial and Technological Museum, Bengaluru,** has kindly agreed to inaugurate this exhibition. This exhibition will enable students to get hands-on experience in conducting experiments and empower them to take up science education with enhanced focus and communicate science in an effective manner.

When Jawaharlal Nehru Planetarium (JNP) invited schools to send their proposals for this exhibition, more than 100 entries from 30 schools in Bengaluru and outside were received. Out of this, the 25 best exhibits were selected, and they will be on display in this exhibition. About 80 students from various high schools in the city will be demonstrating and explaining these exciting science experiments. 'Science In Action' exhibition is scheduled during **November 27-29, 2026,** between **10:30 am** and **4:30 pm. Entry to the exhibition is free.**

This is for your kind information with a request to provide good coverage for the event so that a large number of students will visit this exhibition and get inspired.

Yours sincerely,

(Dr B R Guruprasad)
